Assessment of apical
leakage of different
Endodontic Sealers
Using a new method (In Vitro Study)

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Using a new method (In Vitro Study) | One of the main problems of dentists and endodontic for treatment of teeth in need for root canal therapy is the lack of perfect seal at the apical area to meet their requirements. The sealing properties of root canal filling materials is one of the most important factor that can influence apical seal. When filling the root canal system, the sealer plays..
