HarperCollins Publishers, United States, 2006. Hardback. Book Condition: New. 234 x 150 mm. Language: English . Brand New Book. Why is medical care in the United States so expensive? For decades, Americans have taken it as a matter of faith that we spend more because we have the best health care system in the world. But as costs levitate, that argument becomes more difficult to make. Today, we spend twice as much as Japan on health care yet few would argue that our health care system is twice as good. Instead, startling new evidence suggests that one out of every three of our health care dollars is squandered on unnecessary or redundant tests; unproven, sometimes unwanted procedures; and overpriced drugs and devices that, too often, are no better than the less expensive products they have replaced. How did this happen? In *Money-Driven Medicine*, Maggie Mahar takes the reader behind the scenes of a \$2 trillion industry to witness how billions of dollars are wasted in a Hobbesian marketplace that pits the industry's players against each other. In remarkably candid interviews, doctors, hospital administrators, patients, health care economists, corporate executives, and Wall Street analysts describe a war of all against all that can turn physicians, hospitals, insurers, drugmakers, and device makers into blood rivals. Rather than collaborating, doctors and hospitals compete. Rather than sharing knowledge, drugmakers and device makers divide value. Rather than thinking about long-term collective goals, the imperatives of an impatient marketplace force health care providers to focus on short-term fiscal imperatives. And so investments in untested bleeding-edge medical technologies crowd out investments in information technology that might, in the long run, not only reduce errors but contain costs. In theory, free market competition should tame health care inflation. In fact, Mahar demonstrates, when it comes to medicine, the traditional laws...
