Reviews

This publication will never be effortless to get started on reading through but very entertaining to read through. It normally is not going to expense too much. I discovered this publication from my dad and i encouraged this book to find out.

History class and boys Alicia s life has taken another very strange turn. She awakens to a world where her grandmother is no longer alive, in fact she passed away years before. Everything else about Alicia s life is the same, aside from her parents being there instead of her grandmother. Alicia is certain that something she did in the past was the cause of her grandmother s passing. She is so distraught that she has almost forgotten about the strange boy she shares a history assignment with. When he declares that he knows who she is, Alicia is left speechless. Was there something more to the familiarity that she felt when she was around him? To make matters worse the grandfather clock is gone and Alicia has no way to get back to the past. All she can think of is what will happen to little Zia, Matthias, and all of the gypsies. She had promised them that she would save them, then she had walked them directly into the fiercest danger that they would ever face. Now she was forced to abandon them. The world around her expects her to be the same Alicia as always, cheerful and eager to have fun. Instead Alicia is exhausted and very depressed. When the mysterious boy in her history class invites her to his home for the afternoon she is not sure if she should go or not. Deciding to get into the car with him and his stone faced grandfather was a hard choice for Alicia, but it is not long before she discovers it is just the latest twist in the strange web of secrets and mysteries that her life...
