Dept. of Veterans Affairs, Office of Inspector General, Office of Healthcare Inspections, 2009 OCLC Number: (OCoLC)501197497 Subject: Veterans hospitals -- New York (State) -- Evaluation. Excerpt: . . . Combined Assessment Program Review of the VA Western New York Healthcare System, Buffalo, New York managers will monitor compliance and report findings to the appropriate committee quarterly. The implementation plans are acceptable, and we will follow up on the planned actions until they are completed. The purpose of this review was to evaluate whether the Magnetic system maintained a safe environment and had safe practice Resonance procedures in the MRI area. Safe MRI procedures minimize Imaging Safety risk to patients, visitors, and staff and are essential to quality patient care. We inspected the MRI area, examined medical and training records, reviewed relevant policies, and interviewed key personnel. We determined that the system had adequate safety policies and conducted a risk assessment of the environment, as required by The Joint Commission. The system had appropriate signage and barriers to prevent unauthorized or accidental access to the MRI area. Patients in the magnet room were directly observed at all times. Two-way communication was available between the patient and the MRI technologist, and the patient had access to a push-button call system while in the scanner. We reviewed the training records of five MRI personnel and found that all had completed appropriate safety training specific to their MRI zone level access. Additionally, we reviewed the training records of six support (non-MRI) personnel who had access to the MRI area and found that all had completed MRI safety training. However, we identified an area that needed improvement. Screening. All patients should undergo...
