Being Geek: The Software Developer s Career Handbook (Paperback)

By Michael Lopp

O Reilly Media, Inc, USA, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book. Is it time to become a manager? Nest and vest? Join that start-up? Tell your boss he s a liar? Or resign in disgust? As a software engineer, you ll face many important decisions such as these, and when you do, you realize there s much more to your career than dealing with code. Author Michael Lopp recalls his own make-or-break moments with Silicon Valley giants such as Apple, Borland, Netscape, and Symantec in Being Geek, the insightful and entertaining book that may help you manage your career better. Through a series of entertaining stories, Lopp walks through a complete job lifecycle, starting with the job search and finishing with the realization it might be time to look again. Plenty of books teach you how to interview for a job, or how to manage a project more successfully, but only Being Geek will help you handle all the baffling circumstances you experience at work, including how to: understand your boss with the chapter on Manager Management ; boost your career through networking with We Travel in Tribes ; deliver effective presentations, with How...
