ARE Press, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. From biology to physics, a new model of nature is emerging that links different fields of science with spirituality. This book explores the similarities between the mystical Akashic records and current scientific models, such as the morphic field with its resonance and the quantum domain with its energy potential. The work of American mystic Edgar Cayce, radical British biologist Rupert Sheldrake, and renowned physicist William Tiller is cited. The author discusses how, in the sense of all life being one, the Akashic records, like the quantum domain and the morphic fields, permeate everything. They aren't out there, but flow through each and every one of us, thus making our journey more purposeful.
