Pub Date: November 2012 Pages: 310 Language: Chinese in Publisher: Social Sciences Academic Press China Population and Labor Report No.13: changes in the population and the Chinese economy is rebalancing focuses on the problem of China's economic transition. divided The three topics to explore. The topic discussed China's demographic transition. The sixth census with the United Nations population projections show that China's aging population is accelerating. the total fertility rate of women has dropped to a very low level. most likely out the trap of low birthrate. Session II focuses on rebalancing of the Chinese economy. Demographic dividend to promote the rapid growth of the Chinese economy. but the lag and structural challenges of economic reform led to the internal and external imbalances in the Chinese economy and heavy investment. the light pattern of consumption in GDP. and bring the sex industry in the region and support of part of the policy tilt serious overcapacity. hindering the further development of China's economy. the adjustment of the economic structure and rebalancing imminent. Topic III focuses on employment and income distribution problems. Nonfarm employment trends in China from employment patterns faster than employees. which means that there are a considerable number of rural migrant workers in cities can only engage in self-employment. migrant workers and urban local workers in social protection exist differences in the employment of migrant workers with vulnerability. Contents: thematic demographic transition thematic chapter from the Six P and the United Nations forecast of China's population and population projections for the next three on the future of China's population. the United Nations population projections misjudgment of the situation of China's population and correct two fertility change the decision...
