But all of these urges in a living democracy should be controlled without being controlled. To achieve this seeming paradox we must have a great national purpose, and unselfish leadership such as could come through a National Council of Scientists. Mr. William Henry Smyth has been in general practice as a consulting engineer since 1879. He is the inventor of many machines and mechanical devices, including a system of raising water by direct explosion on its surface, the device being known as the direct explosion pump. He has been an engineering expert in many patent cases, and is a frequent contributor to technical journals....
