By Rubert Boyce

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Thompson Yates and Johnston Laboratories Report, Vol. 7: February, 1906 Male (fig. 1). - Body rather slender. Head as broad as long, quadrangular, posterior angles with a large flat chitinous expansion from which arises a stout hair extending backwards and reaching slightly beyond the insertion of the third pair of legs. Mentum with six short, curved spines, arranged in a cirlet; beyond the mentum is a bilateral series of three larger spines, arranged somewhat in the form of a circle. Mesothorax with two long, stiff hairs, widely separated. Antennae (fig. 2) stout, of five segments; first segment much the largest, broader than long, the length equalling half the width of the head; second segment simple; third segment the shortest, anteriorly produced into a long, blunt, curved spine; fourth segment simple, not quite as long as the second; apical segment shorter than the fourth, apex truncate, bearing three or four minute spines; margins of all the joints more or less highly chitinised. Leg i. shorter than the rest; leg ii. (fig. 3) similar to leg...

### Reviews

*It is one of the most popular book. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Camylle Larson**

*This pdf is so gripping and fascinating. It really is rally intriguing throgh looking at period of time. I am pleased to tell you that this is basically the very best publication we have go through within my personal lifestyle and might be he very best ebook for ever.*
