The amount of general knowledge regarding American wild life that countless thousands of Americans need to know as a business proposition is really great. By way of illustration, here are a few items: the birds that are useful to man and deserve protection; the birds that men and women are ruthlessly exterminating in ways that constitute a crime against nature; the mammals that are of most value and those that are of the greatest interest to mankind; the mammals that are most destructive to man s pos sessions and which need to be destroyed; the fishes that need perpetuation and propagation as a cheap food supply for the poor; the conservation of marine life generally; the reptiles that, are deadly and those that are harmless the reptiles that are useful to man; the insects that are injurious, and how to cope with them; the crustaceans and mollusks that can be cultivated and perpetuated by intelligent effort. These few items relate to the utilitarian or commercial side of life, but of...
