Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Health and Efficiency This book has been written for boys and girls in the Junior and Senior High Schools. It aims to present the fundamental principles of Hygiene and Sanitation in such a way as to lead to better health and greater efficiency. Only sufficient Anatomy and Physiology has been included to form a suitable background for the study of the principles of good living. From an experience of over ten years with High School pupils the author is convinced that too much emphasis has been laid on a technical study of body structure and function and too little on the care of the body. The author believes furthermore that the study of the care of the body is of much more consequence to the High School girl and boy than is a detailed study of its composition. Many teachers attempt problems in Anatomy and Physiology with Secondary School pupils which College and University students find difficult. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
