

New Englishmans Greek-English Concordance with Lexicon

By George V. Wigram

Authors for Christ, Inc. Paperback. Condition: New. 962 pages. Dimensions: 9.0in. x 6.0in. x 2.1in. Though the concordance has always borne the name of Wigram (since 1848), Wigram was involved only in the conception of the project, and the financing of the work being done by others, including students. It is of course a monumental task to compile such a concordance. Likewise, Jay P. Green, Sr., the Revising Editor, was not involved in doing the initial work on The Concise Lexicon. The project was conceived by Dr. Maurice Robinson, and he recruited other scholars to do the work. Then after financing it, the Editor did the typesetting, styling, and publication. This concordance lists every Greek word in the order of the Greek Alphabet. And under that word appears an English print-out of every place where that original Greek word appears in the Bible (English words of the Concordance are from the KJV). . The good news is that it is an even finer study tool now that it is coded with Strongs numbers. In addition it gives page references to Thayers Greek-English Lexicon, Arndt-Gingrich Greek-English Lexicon, and, Kittels Theological Dictionary. A further improvement, and a major one which is unavailable...
