Excerpt from The Zend-Avesta, and Solar Religions: An Historical Compilation Tms paper is the first of a series, designed to show the unitary origin and scientific basis of the principal religions of the world, and to furnish a criterion by which we may discover how far they have been truly developed upon their natural type, and how far they have been falsified, as well as what they contain that is essential, and what is merely complementary. In the first papers, which are historical, the reader will naturally make those deductions which flow from the text.
