For the first time you will be introduced to the originally developed Fraud Risk Assessment Model created in 3 Dimensions: Functional, Methodological and Timing Dimensions! Dinev s SMARTGuide covers the chapters about what 3D Fraud Risk Assessment (3D FRAM) does best. The Functional Dimension encompasses all functions of the systematic fraud risk assessment process. Reading the part The 3D FRAM - Methodological Dimension you will learn How To Do or to apply different methods and techniques for conducting all the functions necessary for the 3D FRAM.
