RED WHEEL/WEISER, United States, 2005. Paperback. Condition: New. Language: English . Brand New Book. This book is about the spiritual impact of our increasing ability to communicate quickly and with enhanced evolution. It s about our search for meaning, our hunger for a glimpse at humanity s future development in which-frighteningly or excitingly-the trend is clearly toward increasing integration of telecommunications and information technology with the body itself. Electronic prosthetics, direct neural implants, and the brain s control of electronic and mechanical limbs move the boundary that used to exist between human and machine to some undefined frontier inside our bodies, our brains, and, perhaps, our minds.
