If I nevertheless have undertaken to write the following pages, I have done so because of the unexpectedly favourable criticism which the first two chapters of my book - Life and Adventures of Arminius Vambery, Written by Himself - met with in England and in America. In this book I tried to lay before the public an account of such travels and wanderings of mine as were not comprised in my first book on Central Asia, and in addition I thought it advisable to give a few outlines of my juvenile adventures and struggles. Strange to say it was the narrative of the latter which elicited the particular interest of my readers, as I noticed from the many letters I received from the most distant parts of Europe and America.
