Excerpt from Cases in Orthopedic Surgery: Read Before the Massachusetts Medical Society, at Its Annual Meeting, June 3, 1868 There are but few cases in which the patients are so situated as to appear on such an occasion as this. Either they live at too great a distance, or they dislike to be presented. This boy, however, willingly comes forward. He well illustrates the legitimate results of the combination of operative and mechanical surgery. He is nine years of age. He had congenital varus of the right foot. Continued use of the foot had converted it into what has been termed varo-dorsalis. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
