

Knowledge of Results in Human Learning

By Jamnalal Bayti

Mittal Publications, New Delhi, 1995. N.A. Book Condition: New. Xvi+272pp Learning, if it does not go from ?womb to tomb? certainly it goes from ?cradle to cremation.? It is a continuous process which pervades whole field of human behaviour explicit or implicit. For effective learning these should be some impelling forces as well as certain objectives to be achieved. Knowledge of results may be considered as a forceful factor in the form of motivation for learning and thus it is supposed to enhance the learning outcome. Evaluation of learning or achievement is an inseparable aspect of education, comparatively knowledge of result? is a new phrase in the psychology of learning. The specific problem undertaken here is the present study is ?how learning is a function of knowledge of results? Attempt is made here to know the factors responsible for increasing the efficiency of learning. The study will practically help the authorities of Universities, Boards of Education besides-the class room teachers who can make the students conscious of the potentialities.
