

## Typed Resource Definitions - Search and Rescue Resources (Fema 508-8 November 2005)

Filesize: 2.91 MB

### ***Reviews***

*A fresh e book with a brand new point of view. It is definitely simplistic but surprises in the fifty percent of your ebook. Its been designed in an extremely basic way and is particularly just soon after i finished reading this ebook where in fact altered me, change the way i really believe.*

Createspace. Paperback. Condition: New. This item is printed on demand. 42 pages. Dimensions: 11.0in. x 8.5in. x 0.1in. The National Mutual Aid and Resource Management Initiative supports the National Incident Management System (NIMS) by establishing a comprehensive, integrated national mutual aid and resource management system that provides the basis to type, order, and track all (Federal, State, and local) response assets. For ease of ordering and tracking, response assets need to be categorized via resource typing. Resource typing is the categorization and description of resources that are commonly exchanged in disasters via mutual aid, by capacity and/or capability. Through resource typing, disciplines examine resources and identify the capabilities of a resources components (i. e. , personnel, equipment, training). During a disaster, an emergency manager knows what capability a resource needs to have to respond efficiently and effectively. Resource typing definitions will help define resource capabilities for ease of ordering and mobilization during a disaster. As a result of the resource typing process, a resources capability is readily defined and an emergency manager is able to effectively and efficiently request and receive resources through mutual aid during times of disaster. This item ships from La Vergne, TN. Paperback.
