Lulu.com, United Kingdom, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.David Manning wrote A Brief History of the Recent Future in the mid 1970s with the idea of satirizing the present by forecasting the most bizarre imaginable future. The result was a verbally animated cartoon tracing the evolution of an apocalyptic conflict between proponents of ganic garbage vs those advocating ficial garbage as civilization s final energy resource. Along the way, the tale introduces such absurdities as a credit-system economy; the Bronx Sanitation Air Force; a 3,000-acre rubber-raft island named Carabia; a news toaster that burns headlines onto breakfast bread; and people metabolically transformed by Mango Tango, the core building block of the artificial ecosystem. Resurrected from the past, the book remains, after 35-plus years, a satiric fantasy, now looking back at the odd events nobody knows transpired but brought us to our increasingly dystopian state. Once the harbinger of a future too ridiculous to contemplate, the original bizarre predictions resonate more every day.
