By Terry Lee Kepner

Flying Chipmunk Publishing, United States, 2016. Paperback. Condition: New. 3rd. Language: English . Brand New Book ***** Print on Demand *****.Perfect for the writer looking for realism in his work. Written for the layperson, this book gives details about the 800 stars and 80 planets within 40 light-years of Earth, with special attention given to the stars which Astronomers have discovered have orbiting planets. Includes a summary of star formation and evolution, planet formation theories, and where planets might orbit. Stars with planets have charts showing each planet s orbit, as well as the habitable zone -- where a planet must orbit to have water as a liquid on a planet s surface. Over one hundred easy-to-read maps and charts in 113 pages make it simple understand, and a comprehensive index makes it easy to use. Writers will find this an excellent resource that provides all the details needed to write a believable story. An invaluable resource for anyone who wants to get their hard science or space opera right. -- Thomas A. Easton, Professor of Science (Ret.). Former columnist for Analog Science Fiction and Fact. An essential resource for science-fiction writers and astronomy buffs alike. -- Robert J. Sawyer,...
