Elsevier - Health Sciences Division, United States, 2014. Paperback. Condition: New. 2nd Revised edition. Language: English . Brand New Book. With a concise, focused review of orthodontic concepts and current clinical information, including diagnosis, treatment planning, and clinical treatment, MOSBY S ORTHODONTIC REVIEW is the resource you need to achieve the best results for success on competency examinations as well as excellent clinical outcomes. From foundational concepts to more subjective areas of treatment planning and clinical treatment, this book includes a wealth of information from distinguished educators, recent graduates, and practicing professionals to help you prepare for the NBDE, Part II and the ABO written and clinical examinations. In addition, the companion CD-ROM includes six orthodontic cases written in the format required by the ABO for the Initial Clinical Examination to help familiarize you with the required ABO format. This book can be highly recommended; it is good value for money and gives a comprehensive overview of the subject. The publication is suitable for general dentist with an interest in orthodontics, postgraduate students of the subject as well as specialists.
