The Neurogenesis Diet and Lifestyle brings together the latest in neuroscience research to present a new and proven view of brain health and aging. Only recently has it been discovered that the brain produces new brain cells throughout our entire lives, a process called neurogenesis. The rate at which we form new brain cells has a profound influence upon every aspect of our life. When the rate of neurogenesis is low, we see cognitive deficits and memory problems, anxiety and stress, depression, and lowered immunity. Life is difficult. With high rates of neurogenesis we see the opposite: enhanced cognitive abilities, rapid learning, emotional resilience, protection from anxiety, stress and depression, heightened immunity and robust health. We flourish. Life..
