SMOOTH FOUR-MANIFOLDS AND COMPLEX SURFACES ERGEBNISSE DER MATHEMATIK UND IHRER GRENZGEBIETE. 3. FOLGE A SERIES OF MODERN SURVEYS IN MATHEMATICS

Springer. Paperback. Book Condition: New. Paperback. 522 pages. Dimensions: 9.0in. x 6.0in. x 1.5in. In 1961 Smale established the generalized Poincare Conjecture in dimensions greater than or equal to 5 and proceeded to prove the h-cobordism theorem. This result inaugurated a major effort to classify all possible smooth and topological structures on manifolds of dimension at least 5. By the mid 1970s the main outlines of this theory were complete, and explicit answers (especially concerning simply connected manifolds) as...

Reviews

I just started reading this article ebook. It really is written in easy phrases and not difficult to understand. I am just very happy to tell you that here is the very best pdf we have read during my individual life and might be the very best ebook for actually.

-- **Camren Kuvalis**

The ebook is simple to go through better to fully grasp. It is actually really exciting through reading through period. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Alexander Jacobi**

The ideal publication to go through at any time. It is actually really fascinating through reading through time. I am pleased to inform you that this is actually the greatest book I have got read through during my individual existence and might be the best book for at any time.
