Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Coordinated Management for Harvesting, Storing, and Marketing Northwest Apples The effectiveness Of a marketing program, for example, depends upon facilities for proper handling and storage as well as upon having fruit of high quality. The cold-storage facilities in turn can be operated effectively only when they are planned in conformity with specific conditions Of production, transportation, management, and marketing. A cold-storage plant that gives satisfactory results under one set of circumstances might not be suited at all to others. For this reason the design of a cold-storage plant is not solely a problem of assembling equipment and storing the fruit. The plant design is a part of a plan for controlling the condition of fruit until it is eaten. The other parts of the plan include producing the fruit, harvesting and getting it to storage, packaging it, sorting or segregating, shipping, and distributing it for consumption. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
