

## BMW 5 Series (E34)

By Frederic P. Miller

Alphascript Publishing Jan 2010, 2010. Taschenbuch. Condition: Neu. Neuware - The BMW E34 is the version of the BMW 5 Series automobile built from mid-1987 to 1996, with the Touring model ending June 1996. It replaced the BMW E28 in 1988 and was replaced by the E39 in 1996. The E34 succeeded the BMW E28 in 1989 with two models. The 525i used the BMW M20 engine while the 535i used the larger M30. The cars were a blend of BMW tradition and modern technology. BMW's traditional FR layout and straight-6 were used, providing the smooth engine and optimal weight distribution BMW customers had come to expect. The E34 also had a much stiffer body and was more streamlined than its predecessor, looking very much like the BMW E32 7-series. The E34 was among the most reliable luxury cars on the market, earning the best-in-class ratings from IntelliChoice in 1991, and still considered one of the most reliable BMWs ever made. 100 pp. Englisch.
