By Mark Baker

Springer, Netherlands, 2000. Paperback. Condition: New. 2002 ed.. Language: English . Brand New Book ***** Print on Demand *****. This book covers the core language, plus practical examples for common Internet programming applications. OmniMark is such a powerful program that I can t think of any Internet programming problem that can t be solved with OmniMark. This book makes that clear in real, understandable terms. -Brian Travis,...
