The widespread use of information and communication technology (ICT) has created a global platform for the exchange of ideas. It has also created boundless opportunities for fraud and deception. Cyber crime is one of the most widespread criminal practices around the globe, whether in the form of violation of company policies, fraud, crime, child pornography, or terrorism. It is therefore paramount that organisations, industries, and individuals raise their game to combat these threats. This is an issue of global importance as researchers, government officials, company executives and law enforcement agencies all over the world are struggling to cope with cyber crime. The aim of this book is to explore some strategies to win the battle against cyber crime. This item ships from La Vergne, TN. Paperback.
