

The Puzzle of Twenty-First-Century Globalization: An International Economics Primer (Paperback)

By Patrice Franko, Stephen C. Stamos

ROWMAN LITTLEFIELD, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. The Puzzle of Twenty-First-Century Globalization explores the opportunities and challenges of our international economic system. Patrice Franko and Stephen Stamos clearly trace how the ways we produce, finance, and trade goods and services are profoundly shaped by technologies of communication, transportation, and trade. Globalization encourages hyper-specialization-lavishly rewarding those with the skill sets to serve the global marketplace and punishing those poorly positioned to compete. Globalized systems have created great prosperity-along with instability, vulnerability, and backlash. Few genuinely understand the complex underpinnings of our international economic system-and these specialists tend to operate in isolated silos of finance, trade, and production. But without appreciating how systems come together, we cannot explain political reactions against the costs of globalization such as the Brexit vote or the rise of Donald Trump. We don't value the changing geo-economic importance of the developing world nor the deep threat to ecosystems. This book is the first to emphasize the interrelated economic aspects of globalization from an interdisciplinary perspective. By placing an introduction to trade, finance, and multinational production in the same text that discusses the changing role of developing countries and the...
