

Ecocultures: Blueprints for Sustainable Communities

By -

Taylor Francis Ltd, United Kingdom, 2015. Paperback. Book Condition: New. 1st ed.. 235 x 158 mm. Language: English . Brand New Book. The world faces a perfect storm of social and ecological stresses, including climate change, habitat loss, resource degradation and social, economic and cultural change. In order to cope with these, communities are struggling to transition to sustainable ways of living that improve well-being and increase resilience. This book demonstrates how communities in both developed and developing countries are already taking action to maintain or build resilient and sustainable lifestyles. These communities, here designated as Ecocultures , are exemplars of the art and science of sustainable living. Though they form a diverse group, they organise themselves around several common organising principles including an ethic of care for nature, a respect for community, high ecological knowledge, and a desire to maintain and improve personal and social wellbeing. Case studies from both developed and developing countries including Australia, Brazil, Finland, Greenland, India, Indonesia, South Africa, UK and USA, show how, based on these principles, communities have been able to increase social, ecological and personal wellbeing and resilience. They also address how other more mainstream communities are beginning to transition to more...
