Turtleback Books, United States, 1999. Hardback. Book Condition: New. Bound for Schools Libraries ed.. 170 x 114 mm. Language: English . Brand New Book. They mustn't harm a human being, they must obey human orders, and they must protect their own existence.but only so long as that doesn't violate rules one and two. With these Three Laws of Robotics, humanity embarked on perhaps its greatest adventure: the invention of the first positronic man. It was a bold new era of evolution that would open up enormous possibilities - and unforeseen risks. For the scientists who invented the earliest robots weren't content that their creations should remain programmed helpers, companions, and semisentient worker-machines. And soon the robots themselves, aware of their own intelligence, power, and humanity, aren't either.
