

## Schweizerisches Jahrbuch (1)

By -

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 420 pages. Original publisher: Gaithersburg, MD : U. S. Dept. of Commerce, National Institute of Standards and Technology, 2007 OCLC Number: (OCoLC)714139940 Subject: Fire -- Mathematical models. Excerpt: . . . 1 REI 4714 A Computational Model For Fire Growth and Spread On Thermoplastic Objects 1. BACKGROUND 1. 1 Introduction This report describes the work effort by Reaction Engineering International ( REI ) to develop, demonstrate and deliver to the National Institute of Standards and Technology ( NIST ) a condensed phase computational fluid dynamics ( CFD ) based tool to model the processes of melting, flow and gasification of thermoplastic materials exposed to a high heat flux. This work effort is in response to NIST solicitation PWS SB1341-05-C-0041. Potential applications of the tool include investigating the behavior of polymer materials commonly used in personal computers and computer monitors if exposed to an intense heat flux, such as occurs during a fire The condensed phase CFD ( CPCFD ) model delivered to NIST is based on a time dependent ( time varying ) grid CFD method. The time dependent grid CFD model provides a rigorous approach, enabling detailed...

### Reviews

*The ebook is not difficult in read through easier to comprehend. Of course, it is perform, nonetheless an interesting and amazing literature. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Dr. Haylee Grimes PhD**

*This ebook could be worthy of a go through, and a lot better than other. I have study and that i am sure that i will likely to read through yet again once more in the future. I found out this pdf from my i and dad suggested this pdf to discover.*

-- **Lorine Rohan**
