*This publication is indeed gripping and intriguing. It is actually written in basic terms and not difficult to understand. I am just pleased to explain how here is the greatest publication we have read through during my own lifestyle and could be the best pdf for at any time.*

USAF Plans and Policies: Logistics and Base Construction in Southeast Asia, 1967 is the latest in a series of historical studies on the war in Vietnam prepared by the USAF Historical Division Liaison Office (AFCHO). The author examines the overall logistic problems facing the Air Force in 1967 as it undertook to prepare for a war of seemingly indeterminate length. He also reviews the steps taken to improve the Air Force s munitions situation, Southeast Asia base construction, and high-level planning for construction of an anti-infiltration system across South Vietnam and Laos, which would require special USAF support facilities, equipment, and personnel. Declassified.
