Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Shaun MacGregor relied on knowledge of animals behaviour to predict their movements. His book is a brave diary of efforts to grasp the trail of human behaviour that can endanger marriages. What makes this story so powerful is that it is an eye-witness testimony of the hardships marriages can face today. It attempts to help others find a path to loving, Godly relationships. My wife stopped feeling loved and sought the only solution she understood - a divorce. D-I-V-O-R-C-E was such a foreign concept to me. How was it possible that my own flesh could genuinely tell me, she no longer loved me? I hit the Book, and others, applying the same peripheral vision and scrutiny as when tracking an animal in the wild. The trail took me on an astonishing journey of mental and spiritual discovery, which not only revealed the mystery of my own relational predicament, but an understanding and renewed way of thinking that, I firmly believe, can save us from ourselves - the enemy possesses our minds through demonic strongholds to covertly corrupt the way we think and act. I thought it ironic that an ex-Game Ranger s first guidebook was about love relationships, in lieu of the rich experiences afforded to those living in the African bush. So, I fashioned a few real-life adventures into some exciting and funny analogies for the lessons I put forward in this book. The pages are populated with understanding, inspirational quotes from scripture, motivation and good humor. I sincerely hope you enjoy reading it and learning. God bless you and your family. P.S. I am pleased to praise the Lord for a marriage making strides.
