Responsible management Of the natural resources of soil, water, and wildlife encompassed by these Operations produces significant environmental benefits for society to enjoy. Therefore, investment in the viability Of these Operations will yield dividends in the stewardship of the Nation s natural resources. Places for families: Panns, particularly family farms, can be nurturing places for children to grow up and acquire the values of responsibility and hard work. The skills of farming are passed from one generation to another under family ownership structures. When farm children do not return to farming because of their desire for more financially secure careers, a generation of farming knowledge, skills, and experience is lost.
