This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. There s lots to like about Leslie Crawford s poems. To begin with, she s interested in other lands and going through portals to strange places. Here, you might catch a vision of the past, strangely clad folk called elves or even a man sitting at a desk who looks oddly familiar. Is he a seer, an alchemist or maybe someone closer to home? While the author is clearly intrigued by the dark side and the lure of iniquity, she is also at ease telling a fable ( Night and Day ) and taking an amusing dig at witches and modern chemistry ( The Pot ). Ships and the sea play an important part in the poet s stock of imagery and the title piece, White Horse , sees the ocean as a force doing battle with the shore, just as the volcano in Fire Mountain poses a threat to vegetation and mankind. Altogether, it s an exciting, highly imaginative collection, with unusual turns of phrase.
