Cambridge Scholars Publishing, United Kingdom, 2007. Hardback. Condition: New. Unabridged edition. Language: English . Brand New Book. This groundbreaking piece of work establishes a position of embodiment as an ethically salient epistemological and empirical strategy for understanding, representing, and experiencing gendered embodiment and marked flesh. Developing an embodied, feminist critique of the sociology of the body, the author integrates this position with some of the most recent developments in qualitative methodologies and creative research practices in order to engage with, and represent, women's experiences of body-marking. As such, the specific body practices which are addressed, body modification and self-injury, are refigured in the context of a feminist, embodied position. This position of embodiment not only establishes a holistic, non-dualistic orientation from which to experience and explore gendered embodiment and body-marking practices, but in doing so, also highlights the limitations of normative dualistic, disembodied theories and methods which objectify and distance the very experiences they purport to explain. Overall, this exploration is a provoking, moving and often uncomfortable journey into the imperatives of gendered embodiment, abject corporeality, blood and pain, and the practices which mark the body and evoke and transform the gendered, embodied self. This is a courageous, beautifully written, evocative, and thought provoking book that takes the reader on an intimate journey into the misunderstood world of body marking practices. As part of the journey, Inckle provides a range of insights into the fluid, ambiguous, and complex forms of embodiment experienced by women over time. The reflexive stance she adopts throughout enables the reader to chart her emerging awareness of methodological dilemmas and the inherent tensions she experiences in trying to resolve them in relation to feminist ethical positions. As part of this process, she challenges the norms of knowledge production and dissolves the disciplinary boundaries that frame...
