

Paths to Learning: Teaching for Engagement in College (Paperback)

By -

National Resource Center for The First Year Experience Students in Transition, United States, 2014. Paperback. Condition: New. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. Higher education institutions are more diverse than ever before, as are the students they serve. Because of this great diversity, there is no silver bullet-one approach-that will work for teaching all students in all circumstances. This book offers a succinct description of several pedagogical paths available to faculty that can actively engage all students. In addition to providing the most recent information on learning and assessment, individual chapters tackle different approaches, including critical pedagogy, contemplative pedagogy, strengths-based teaching, and cooperative/collaborative learning. While the discussion is grounded in theory, authors present examples of applying these approaches in physical and virtual learning environments. Paths to Learning is a valuable overview of engaging pedagogies for educators seeking to sharpen their teaching skills, which in turn, will help students become more confident and successful learners.
