It would be our duty, as citizens on this earth to document its end the best way we know and if that means a second by second update of the world going up in flames, or down in rain, or crushed under the feet of invading monsters so be it. -- Shivangi Narain No one understands an apocalypse like the people who have experienced it. Mad Scientist Journal has brought together twenty-three tales of people who have seen the world end. These accounts range from irreverent to surreal to heartbreaking. Zombies share space with global wars, superviruses, canned peaches, and the death of the sun.
