This new guide is packed with strategies and ideas on how teachers and students can use desktops, laptops, smartphones, tablets, apps, interactive educational websites, learning games, blogs and wikis, assistive technologies, digital portfolios, and many other new and emerging technologies to create highly interactive, inquiry-based teaching and learning experiences in K-12 schools. Transforming Learning with New Technologies is designed to help current and future teachers transform classrooms into technology-infused places of learning where adults and students work together as educational partners to understand and use technology to the best advantage. With its focus on the day-to-day realities of elementary and secondary schools, each chapter addresses the needs of future educators by providing thoughtful perspectives, instructional examples, descriptions of tools and apps, and technology-integrated lesson plans from across the curriculum for all grade levels, K-12. The book emphasizes the new knowledge and expanded talents teachers and students who use technology need to have in order to develop in their future careers and social life--what the Partnership for 21st Century Skills calls the 3Rs (the changing content of the academic curriculum as schools move to include problem solving and inquiry learning in subject areas) and the 4Cs (the skills of critical thinking, communication, collaboration, and creativity). It shows how teaching and learning with the 3Rs and 4Cs helps teachers using technology prepare, deliver, and assess lessons differently, while students use technology...
