

The Rise and Fall of Captain Methane: Autobiography of a Maverick (Paperback)

Filesize: 9.26 MB

Reviews

A very awesome ebook with perfect and lucid explanations. I could possibly comprehend every thing using this written e pdf. I am happy to explain how this is basically the best ebook i have got read inside my personal life and may be the very best book for ever.
(Mr. Santa Rath)

THE RISE AND FALL OF CAPTAIN METHANE: AUTOBIOGRAPHY OF A MAVERICK (PAPERBACK)

Outskirts Press, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Death on the Twilight Zone Set Los Angeles Herald Examiner, July 24, 1982 Flying debris from exploding gasoline fireballs triggered yesterday s freak helicopter crash that killed veteran actor Vic Morrow and two child actors as they filmed an escape scene, preliminary reports from investigators indicate. May 29th, 1987 - The jury in the Twilight Zone accident case acquit movie director John Landis and four co-defendants of all charges filed by the LA District Attorney. Among the jurors conclusions were that the Vietnam era helicopter was accidentally sent spinning out of control during filming by poorly timed special effects explosions. In Northwest Texas, a small town shoeshine boy looks to the blue skies above Sundown and yearns to be a pilot. Ten years pass and Dorsey Wingo is drafted as part of LBJ s massive military build-up in Vietnam. In March of 1969, Charlie Model gunship pilot Wingo takes to the skies over Pleiku in the defense of freedom. The author survives his tour of duty, returning to a shattered marriage, and an ungrateful and divided America. In time, his love of flying takes him as far afield as the jungles of Peru and the poppy fields of Mexico. Then came the movies, and the Twilight Zone. Southern California has been Wingo s home base for many years of his aerial adventures, culminating as a Huey logging pilot in the Northwestern USA and Alaska. Captain Methane put Wind Loggers into print in 2005, the first such book about the hazardous helicopter logging profession.
