Reviews

This is actually the very best book i actually have read till now. This is for all those who statte that there was not a worth studying. Its been written in an remarkably straightforward way which is merely following i finished reading this publication by which in fact altered me, modify the way i believe.

(Mr. Jeramy Leuschke IV)

DC Comics, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. Cave Carson has a cybernetic eye. But you knew that already. The question is, why was this spelunking adventurer fitted with a bionic implant and what do the visions it's giving him mean? Before his cybernetic eye started showing Cave Carson a world outside his own, he had retired from his life of exploring the center of the Earth with his wife, Eileen, and they had settled into a comfortable, if not mundane, existence above the surface. That is, until Eileen got sick. Now, newly widowed, a knock on the door of Cave's underground lab has brought him back into the world he thought he left behind, beneath the surface of the Earth. Co-written by Gerard Way (*DOOM PATROL*) and Jon Rivera (*HEARTBREAK*), with stunning art by Michael Avon Oeming (*POWERS*), this absurdist take on one of DC's more obscure spelunkers explores love and loss, and the line between reality and perception. Collects issues #1-6. **CAVE CARSON HAS A CYBERNETIC EYE** is a part of DC's Young Animal--a four-book, grassroots, mature reader imprint, creatively spearheaded by Gerard Way, bridging the gap between the DC Universe and Vertigo, and focusing on the juxtaposition between visual and thematic storytelling.
