

## Our Genetic Destiny: Understanding the Secret of Life

By Amil Shah

Dundurn. Paperback. Book Condition: New. Paperback. 165 pages. Dimensions: 8.9in. x 5.8in. x 0.4in. Our Genetic Destiny is a fascinating account of the origin, evolution, and organization of our genes. At the heart of life, genes tell our cells what to do, when to grow, and what to become. They are passed on faithfully from one generation to the next, from parent to child, a seemingly comfortable constant across millennia. In the past few years, however, genes have been found to be imponderably complex, more subtle and intricate than we ever imagined. They amplify and duplicate themselves; they leap from one chromosome to another; they reshuffle to create new images of themselves. Far from being predictably stable, following a preset schedule, genes are surprisingly versatile. Biologists are now able to retrace the steps to the origin of life when the first cell appeared some 3.8 billion years ago. Ever since, the descendants of that original ancestor have become increasingly diverse. This upward trend, punctuated by bursts of innovations, is underpinned by the genes, which are organized into elaborate networks. Understanding the nature of this genetic architecture is a long quest of biologists, who seek to find the unifying principle that...
