Date :2007-08. We should focus on education. especially university education. Here the word university education. university education is a common problem. The purpose of our attention is through in-depth study of these problems. propose solutions to the problem. To influence state or local government policy and decision-making. China s university education is in a period of change. there are too many issues that we need to pay attention to research. there are many issues worthy of our attention. to study. For example. the ability to reform the way for investment in university education. students and their families to reduce the economic pressure (such as government loans to Australian model)? Now the government can reform the University of grants. in order to achieve fair competition in the Chinese higher education in the coordinated development (University Grants Committee of the British government mechanisms and methods should learn)? Can reform of the private universities now operating mechanism. so that China s private higher education is no longer a for-profit industry? Whether the reform of China s tax laws to encourage people and businesses to donate to education? There are many models of university education and management issues. such as post-graduate training model. the medical education model. independent college management system. are the development of China s higher education problems and challenges. You might think. these are the National Education s fundamental policy. we. the ordinary university administrators and teachers to students. how to study got? In fact. scholars of national and social contributions. a very important way is to use their research results to influence government decisions. which affect the social development and progress....
