Forgotten Books, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Practical Handbook for Beet-Sugar Chemists: Rapid Methods of Technico-Chemical Analyses of the Products, and by-Products and of Material Used in the Manufacture of Beet Sugar The author does not claim of this handbook to contain hereto fore unknown theories and methods, but has endeavored to con dense the selected practical information obtained from standard works and other sources, to a small, convenient form. It is evident that the manufacturing process, the chemistry of the various sugars and the polariscope could not be discussed exhaustively within the limits of a mere handbook, but the short outlines given will doubtless prove profitable to beginners. The author takes this opportunity to thank Mr. Geo. M. Bradford for the complete revision of the manuscript, also Messrs. Eimer Amend of New York for the loan of some of their electrotypes.
