*The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.*

To give the long list of infestations regarding which inquiries were received, would be for the most part a mere enumeration of our best known insect pests, as Wireworms, Daddy Long-legs, Carrot grubs, c.; but so far as I could judge by the reports sent to myself, there was a remarkable difference in amount of presence of some of our very commonest attacks. Some were present to an unusual amount, some unusually absent.
