

High Performance Python: Practical Performant Programming for Humans

By Micha Gorelick

O'Reilly Media. Paperback. Book Condition: New. Paperback. 380 pages. Dimensions: 9.8in. x 5.9in. x 0.6in. Your Python code may run correctly, but you need it to run faster. By exploring the fundamental theory behind design choices, this practical guide helps you gain a deeper understanding of Python's implementation. You'll learn how to locate performance bottlenecks and significantly speed up your code in high-data-volume programs. How can you take advantage of multi-core architectures or clusters? Or build a system that can scale up and down without losing reliability? Experienced Python programmers will learn concrete solutions to these and other issues, along with war stories from companies that use high performance Python for social media analytics, productionized machine learning, and other situations. Get a better grasp of numpy, Cython, and profilers. Learn how Python abstracts the underlying computer architecture. Use profiling to find bottlenecks in CPU time and memory usage. Write efficient programs by choosing appropriate data structures. Speed up matrix and vector computations. Use tools to compile Python down to machine code. Manage multiple IO and computational operations concurrently. Convert multiprocessing code to run on a local or remote cluster. Solve large problems while using less RAM.
