RANDOM HOUSE, United States, 2016. Hardback. Book Condition: New. 236 x 160 mm. Language: English . Brand New Book. From the author of the New York Times bestselling phenomenon *The Power of Habit* comes a fascinating new book that explores the science of productivity, and why, in today's world, managing how you think rather than what you think can transform your life. By training herself to envision contradictory futures, she learns to anticipate her opponents' missteps and becomes one of the most successful players in the world. A group of data scientists at Google embark on a four-year study of how the best teams function, and find that how a group interacts is more important than who is in the group a principle, it turns out, that also helps explain why *Saturday Night Live* became a hit. The filmmakers behind Disney's *Frozen* are nearly out of time and on the brink of catastrophe until they shake up their team in just the right way, spurring a creative breakthrough that leads to one of the highest-grossing movies of all time. What do these people have in common? They know that productivity relies on making certain choices. The way we frame our daily decisions; the big ambitions we embrace and the easy goals we ignore; the cultures we establish as leaders to drive innovation; the way we interact with data: These are the things that separate the merely busy from the genuinely productive. At the core of *Smarter Faster Better* are eight key concepts from motivation...
