Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.#1 Best Seller The Tuck is based upon actual events that occurred in the 1950 s, in a small Texas town that s located in Van Zandt County, between Tyler and Canton, just up the road from Ben Wheeler. The hero of our story is a boy named Joe, whose cool intellect in the face of certain danger likely saved his life, when he came face to face with something monstrous in the woods behind his house - something that stalked him and took his memory; something (that after regaining his senses) he set out to find: a decision that ultimately led to a UFO encounter, and stand off in a clearing in the woods that became the defining moment of terror that would haunt his dreams - forever. A compilation of stories, facts, case studies - and more, Lyn brings you face to face with something very strange that lurks in our woods - something not us. Tales by ordinary people, people just like you (and one very famous President). Watch your step - you could be next! This book is sure to please Bigfoot enthusiasts of all ages, and is another prime example of Lyn s delightful style of mixing fact and fiction, the old with the new, brain teasers, and some of her favorite recipes . . . a style that has earned her recognition as the Dinner and a Movie author. With books like this - who needs TV?!
