Further Studies in Retroactive Inhibition (Classic Reprint) (Paperback)

By Ernest Burton Skaggs

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Further Studies in Retroactive Inhibition However, a control series Of experiments was done, largely to meet the above Objections. The reconstruction test was used as before. The exposure time was fifteen seconds. The work consisted in adding two columns Of figures simultaneously. The total time elapsing between learning and reconstruction was three minutes. In one case the subject rested for three minutes. In the other case the subject worked immediately for one minute and then rested the last two minutes. This experiment should largely do away with the above Objections. Four subjects did the experiments, the order Of presentation being irregular in all cases. The averages are given in Table VI.
